[LinkedIn](), [GitHub](), [LeetCode]()

Technically advanced Java Developer with 3.7+ years of experience in designing, developing and delivering user-centric software applications using Java/J2EE technologies. Offering strong expertise in Spring Boot, RESTful API's, PostgreSQL & micro-services architecture. Seeking to secure a challenging position as a Java Developer.

TECHNICAL SKILLS

Languages: Java, SQL, HTML/CSS/JS

Frameworks: Spring, Spring Boot, Spring MVC, Spring Cloud, Spring Security, Hibernate, J2EE

APIs: REST APIs, JMS

Tools: Eclipse, IntelliJ IDEA, Postman, JIRA, Docker, Kubernetes

Databases: PostgreSQL, Oracle, MySQL, Elasticsearch, Redis

Messaging Systems: Apache Kafka, RabbitMQ, ActiveMQ

Cloud Technologies: AWS S3

Design Patterns: API Gateway, Load Balancer, Event-Driven Pattern, Token-Based Authentication Pattern

Architecture: Microservices-based architecture

PROFESSIONAL SUMMARY

- Working as a Product Engineer at Intellect Design Arena Ltd., contributing to the development and enhancement of Global Transaction Banking applications.

- Proficient in Core Java, Multithreading, J2EE, and Spring frameworks, including Spring MVC, Spring Boot, Spring Data JPA, Hibernate, Spring Cloud, and Spring Security.

- Experienced in developing and maintaining production-ready Java applications using Java/J2EE technologies and Spring Boot.

- Hands-on experience in developing and integrating REST APIs, ensuring seamless communication between systems.

- Strong knowledge of relational databases like PostgreSQL, Oracle, and MySQL, along with NoSQL databases like Elasticsearch and in-memory databases like Redis.

- Familiar with frontend technologies like HTML, CSS, JavaScript, and frameworks like AngularJS.

- Practical experience with Spring framework design patterns such as API Gateway, Load Balancer, Event-Driven Pattern, and Token-Based Authentication Pattern.

- Hands-on experience working with messaging systems like Apache Kafka, JMS, ActiveMQ, and RabbitMQ.

- Good understanding of containerization and orchestration tools like Docker and Kubernetes.

- Knowledge of cloud technologies, particularly AWS S3, for storage solutions.

- Skilled in leveraging Gen-AI tools to speed up development and improve productivity.

- Familiar with software development tools like Git, JIRA, and Postman for version control, project management, and API testing.

- Strong problem-solving skills, with the ability to troubleshoot, debug, and optimize applications for better performance.

PROFESSIONAL EXPERIENCE

JAVA DEVELOPER   **Pune, MH**
Intellect Design Arena Ltd.   July 2021–Present

PROJECTS

1. **Liquidity Management System (LMS):**
   Liquidity Management System (LMS) is a comprehensive platform designed by Intellect Design Arena to help financial institutions manage their liquidity efficiently.
2. **Customer Information Management (CIM):**
   CIM software designed by Intellect Design Arena is a robust solution designed to centralize and manage customer data across various touchpoints.
3. **CBX-FO (Corporate Banking Experience - Front Office):**
   CBX-FO is a comprehensive platform offered by Intellect Design Arena, designed to provide a seamless and intuitive banking experience for corporate clients.
4. **CS (Common Services):**
   Intellect Design Arena's CS (Common Services) is a suite of core services designed to support and streamline various banking operations across different modules.

ROLES & RESPONSIBILITIES

- Designed and maintained SpringBoot applications with efficient Java code, ensuring alignment with project requirements.
- Developed and integrated RESTful web services for smooth data exchange between services of LMS, CIM, CS, CBX-FO applications.
- Worked with PostgreSQL, Elasticsearch, Redis, Kafka, and ActiveMQ for data storage and messaging.
- Worked with Docker and Kubernetes for containerization and orchestration.
- Improved API performance, resolved issues, and deployed new features in production environments.
- Developed services based on JMS and Kafka for real-time messaging and event-driven architecture.

EDUCATION

SANT GADGE BABA AMRAVATI UNIVERSITY   **July, 2021**
Bachelor of Engineering in CSE (Computer Science & Engineering)   *CGPA: 9.91*

ACHIEVEMENTS

EFFECTIVE MIND SPOTLIGHT AWARD for outstanding performance in Q3-2023 by iGTB.
