 Pune (MH)  9834751842

SUMMARY

Senior Software Engineer with 4.11+ years of experience designing and delivering enterprise-scale full stack banking solutions for global financial institutions including HSBC. Strong expertise in Java 8/17, Spring Boot, Microservices, REST APIs, PostgreSQL, Kafka, JMS, Redis and modern web technologies including HTML, CSS and JavaScript. Experienced in end-to-end software delivery across UI, API and persistence layers, production support, system integration, performance optimization, secure software development and cloud-native deployments. Proven track record of collaborating with Product Owners, Business Analysts, QA teams and stakeholders to deliver scalable, resilient and regulatory-compliant banking solutions.

EXPERIENCE

Intellect Design Arena, Pune (IN) - Consultant - Software Engineer

July 2021 - Present

- Contributed to the successful implementation and enhancement of Liquidity Management System (LMS), Customer Information Management (CIM), Corporate Banking Experience (CBX-FO), and Common Services applications for HSBC and other global banking clients.
- Designed, developed, tested, and deployed Spring Boot microservices supporting high-volume Corporate Banking and Treasury Management applications.
- Delivered end-to-end features across API, business, integration, and persistence layers while ensuring maintainability, scalability, security, and performance.
- Collaborated with Product Owners, Business Analysts, QA teams, and implementation teams to analyse business requirements, assess technical feasibility, estimate stories, and deliver customer-focused solutions.
- Developed and enhanced business-critical banking functionalities including Cross-Currency Sweeps, On Demand Sweeps, Seven-Day Sweeps Execution, Customer Information Management APIs, Intercompany Loans, Pooling Structures, and Account Arrangement modules.
- Designed and implemented secure REST APIs and backend services to support seamless integration between enterprise banking applications and third-party systems.
- Built event-driven solutions using Apache Kafka, RabbitMQ, ActiveMQ, and JMS for reliable asynchronous communication and real-time transaction processing.
- Led development activities for HSBC CBX-FO upgrade initiatives and delivered multiple high-priority change requests within committed timelines.
- Developed a Spring Boot microservice for Elasticsearch-to-PostgreSQL migration, ensuring data consistency, operational stability, and minimal downtime.
- Optimized REST APIs, database queries, and application workflows, reducing API response time by 50% and improving query performance by more than 70%.
- Performed code reviews and promoted engineering best practices focused on clean code, maintainability, secure coding, and performance optimization.
- Contributed to sprint planning, story estimation, backlog refinement, and Agile ceremonies to support successful release delivery.
- Implemented unit testing and integration testing practices to improve software quality, reliability, and release readiness.
- Developed monitoring and alerting utilities that improved application observability and reduced operational incidents.
- Acted as Production Support SPOC for LMS, CIM, CBX-FO, and Common Services applications, leading incident triage, root cause analysis, defect resolution, and production support activities.
- Diagnosed and resolved critical production issues including JVM memory leaks, OutOfMemory errors, batch processing failures, messaging issues, and integration defects.
- Managed deployments using Docker, Kubernetes, Git, Jenkins, and CI/CD pipelines across Development, SIT, UAT, and Production environments.

-
- Collaborated with global stakeholders across business, implementation, QA, and support teams to ensure successful project delivery and customer satisfaction.
 - Mentored junior team members through technical discussions, code reviews, troubleshooting sessions, and knowledge-sharing activities.

EDUCATION

Bachelor of Engineering (Computer Science & Engineering)
P. R. Pote (Patil) College of Engineering and Management, Amravati
Affiliated to Sant Gadge Baba Amravati University | CGPA: 9.91/10

Aug 2017- June 2021

TECHNICAL SKILLS

- **Languages & Frameworks:** Java 8/17, Spring, Spring Boot, Spring Security, Spring MVC, REST APIs, Microservices, HTML, CSS, JavaScript.
- **Databases:** SQL, PostgreSQL, Oracle Database, Redis, Elasticsearch.
- **Messaging & Event Streaming:** Apache kafka, RabbitMQ, ActiveMQ, JMS.
- **DevOps & Deployment Tools:** Git, Jenkins, CI/CD, Docker, Kubernetes, PuTTY, AWS S3.
- **IDE & Tools:** Eclipse, Visual Studio Code, JIRA, Postman.
- **Architecture & Design:** Microservices Architecture, Event-Driven Architecture, API Gateway, System Integration.
- **AI-Assisted Development Tools:** Cursor AI, Chat GPT

AWARDS

- **SPOT Award:** Awarded for exception performance in delivering multiple CR's to HSBC.

Feb 2026
- **Effective Mind Spotlight Award (Q3 2023):** Recognized for exceptional performance.

Jan 2024
- **Amul Global Excellence award:** Honored for outstanding contribution to client success.

Jan 2025
